

# Implementing the Official Community Plan for the UBC area

The Greater Vancouver Regional District (GVRD) and the University of British Columbia (UBC) invite you to attend an important workshop. This workshop is an opportunity for the UBC community and neighbours to identify recommendations for consideration by the GVRD/UBC Joint Committee on improvements to the implementation process for the Official Community Plan (OCP) for UBC.

The conclusion of the GVRD Board from the 2003 OCP review was that no amendments to the basic policies of the OCP were required; the plan's content remained appropriate to guide land use decisions on UBC campus. As a result of the community comments received during the OCP review, staff have been asked to meet with the public to review OCP implementation.
